

Eduroam is a service recognised across the globe and you as a member of The Crest Academy can enjoy free Wi-Fi wherever the Eduroam wireless network is available.

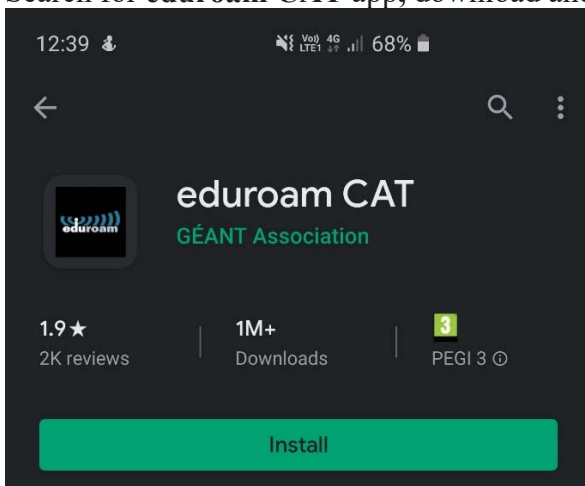

Eduroam is particularly convenient for smart phones and tablets as you will only have to register your credentials once and whenever the Eduroam network is in reach, your device will automatically sign to it.

Installation Instructions

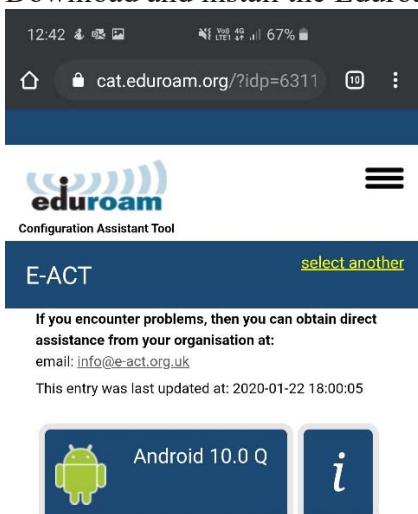

1. Apple users go to the App Store
Android users go to the Play Store

2. Search for **eduroam CAT** app, download and install it.

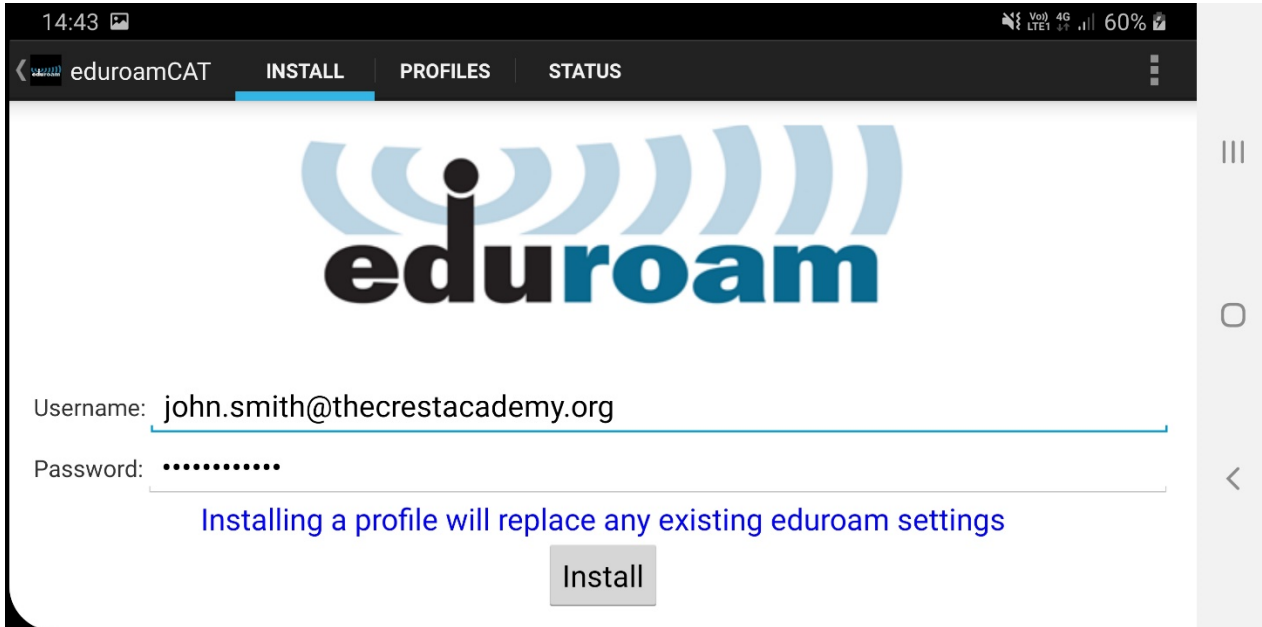

3. Visit <http://cat.eduroam.org/?idp=6311> on your mobile device
4. Download and install the Eduroam installer for your device

Note: Please make sure the OS version shown matches the OS installed on your mobile device.

5. When prompted, enter your computer username including the “@domain” part. For example “[john.smith@thecrestacademy.org](#)”.
6. Enter your School Network Password and click install

The screenshot shows the 'eduroamCAT' mobile application interface. At the top, there is a navigation bar with 'INSTALL' selected. Below the navigation bar is the 'eduroam' logo. The main area contains two input fields: 'Username:' with the text 'john.smith@thecrestacademy.org' and 'Password:' with a masked password of ten dots. Below the password field is a blue warning message: 'Installing a profile will replace any existing eduroam settings'. At the bottom center is a grey 'Install' button. The status bar at the top shows the time 14:43, signal strength, 4G LTE1, and 60% battery.

It will then tell you: **Profile Installed**
You can now go back to your home screen.

7. When you're in range of an Eduroam service, your device should automatically connect.
